

Cybersecurity Engineer

Mohamed Bayrem Bane

✉ medbayrembane@gmail.com  LinkedIn  GitHub  Hack The Box

Profile

Offensive security professional with hands-on experience across penetration testing, Active Directory security, vulnerability validation, and Purple Team operations. CRTP and eCPPT certified, with practical experience in Windows AD attacks, adversary emulation, exploitation, and detection engineering. Currently working as a SOC Analyst, bringing strong defensive expertise in SIEM, threat hunting, incident response, and MITRE ATT&CK.

Professional Experience

Raise Guard 11/2025 – Present
SOC Analyst L1 Tunisia

- Investigated security alerts using Microsoft Sentinel, Defender XDR, and Elastic SIEM; analyzed endpoint, identity, and authentication telemetry.
- Correlated Windows events and identity telemetry with KQL to identify attack chains, attacker activity, and IOCs.
- Mapped observed behaviors to MITRE ATT&CK and produced incident-analysis and CTI reports.

ANCS 02/2025 – 06/2025
Final Year Project – Open-Source SOC Platform Tunisia

- Designed an open-source SOC integrating Wazuh, OpenCTI, and Shuffle for alert handling, IOC enrichment, and threat correlation.
- Built automated workflows and dashboards for threat visibility, investigation, and AI-assisted reporting.

ANCE 01/2024 – 02/2024
Internship Trainee Tunisia

- Compared SOC solutions and evaluated Snort for IDS deployment and security monitoring.

Projects

AI-Assisted Vulnerability Validation & Purple Team Pipeline 2026

- Supervised an automated pipeline combining CVE intelligence, deterministic software matching, isolated exploitation, and AI-assisted security testing.
- Guided integration of NVD, CISA KEV, OSV.dev, OpenAI, and Gemini with a human-approval gate before source transfer and controlled exploitation.
- Designed Purple Team correlation with Wazuh to validate detection coverage; oversaw reachability analysis, controlled exploitation, OOB verification, evidence collection, and snapshot rollback.

Malware Analysis Lab 11/2024 – 01/2025

- Built a controlled Windows malware-analysis lab using static and dynamic analysis; extracted PE characteristics, behavioral indicators, and network artifacts.
- Documented IOCs, MITRE ATT&CK techniques, and detection/mitigation recommendations.

Technical Skills

Offensive Security: Active Directory security, penetration testing, vulnerability assessment, exploitation

Offensive Tooling: PowerView, Rubeus, Mimikatz, Impacket, BloodHound, Nmap, Metasploit

SIEM & Detection: Microsoft Sentinel, Elastic SIEM, Wazuh, KQL, Defender XDR, Trend Vision One

DFIR: Memory analysis, PCAP analysis, Volatility, Windows artifact analysis

CTI & Automation: OpenCTI, Shuffle, Python, IOC enrichment, CTI reporting

Network & Systems: Wireshark, Snort, IDS/IPS, Linux, Docker, Git/GitHub

Associative Experience

Securinets TEK-UP Present
Tech Team Member

- Authored CTF challenges in digital forensics and network analysis.
- Conducted workshops on memory and PCAP analysis.

Radio'Com Club, ISETCOM 2023 – 2024
Vice President

- Organized events and led multidisciplinary teams.

Achievements

- 1st Place:** CrackoutCTF (2025), DarkNetsCTF (2025), Darkest Hour CTF (2026).
- 2nd Place:** TEK-UP CTF KAREEM (2025); **Top 3:** CyberDefenders Tunisia (2025).
- Top 7 North Africa:** Securinets Qualifiers; **8th:** Securinets INSAT CTF Finals.
- Rank 14/2,893:** Hack The Boo 2025 Individual CTF (Hack The Box), solving all challenges on debut entry.
- Authored digital-forensics and network-analysis challenges for CyberTEK and conducted security workshops.

Education

TEK-UP University Sep 2025 – Present
Engineering Degree in Computer Networks and Security (*In Progress*)

ISETCOM, Tunisia 09/2022 – 06/2025
Bachelor in Computer Networks, Network Security – Graduated with High Honors

Certifications

CRTP Jul 2026
Certified Red Team Professional

eCPPT Jan 2026
eLearnSecurity Certified Professional Penetration Tester

eJPT Oct 2025
eLearnSecurity Junior Penetration Tester

Threat Intelligence Analyst Jul 2025
Foundation Level

Cisco Networking Academy CCNA 1–3 Jun 2024
