Mohamed Bayrem Bane

SOC Analyst | Incident Response | Active Directory & Offensive Security

Ariana, Tunisia medbayrembane@gmail.com

mohamed bayrem bane re4perz3d.github.io HackTheBox: Re4perZ3d

SUMMARY

SOC Analyst with one year of experience triaging and investigating security alerts in a 24/7 multi-client SOC, using Microsoft Sentinel, Defender XDR and Elastic SIEM. CRTP, eCPPT, eCIR and eCTHP certified, with hands-on experience in Active Directory security assessments and incident response. Seeking a cybersecurity role where offensive security knowledge strengthens detection and response.

EXPERIENCE

RaiseGuard Tunisia
SOC Analyst (L1) *Nov 2025 – Present*

- Triage and investigate security alerts for multiple enterprise clients in a 24/7 SOC using Microsoft Sentinel, Defender XDR, Trend Vision One, Elastic SIEM and FortiGate.
- Threat-hunt across Windows security events and Entra ID sign-in telemetry with KQL to reconstruct attack chains, separate true from false positives, and escalate confirmed incidents.
- Map behavior and IOCs to MITRE ATT&CK; write incident-analysis, CTI and client closure reports with remediation steps.
- Authored Patch Tuesday vulnerability advisories and a six-month incident trend report for SOC clients.

ANCS – National Cybersecurity Agency Tunisia
Final-Year Project: Open-Source SOC Platform *Feb 2025 – Jun 2025*

- Designed and deployed a full SOC stack integrating Wazuh (SIEM/XDR), OpenCTI (threat intelligence) and Shuffle (SOAR).
- Automated IOC enrichment, alert correlation and triage playbooks, plus AI-assisted incident reporting and analyst dashboards.

ANCE – National Digital Certification Agency Tunisia
Security Intern *Jan 2024 – Feb 2024*

- Benchmarked SOC architectures and deployed Snort IDS to evaluate network intrusion detection and monitoring.

SKILLS

Security Operations: Microsoft Sentinel, Defender XDR, Entra ID, Trend Vision One, Elastic, Wazuh, FortiGate, KQL, ATT&CK
Offensive Security: Active Directory attacks, penetration testing, exploitation (BloodHound, PowerView, Mimikatz, Impacket)
DFIR, Threat Hunting & CTI: Incident response, threat hunting, threat intelligence, memory and network forensics (Volatility, Wireshark, Snort, OpenCTI)
Systems & Languages: Linux, Windows, Docker, Git, Python | Arabic (native), French (professional), English (professional)

CERTIFICATIONS

CRTP – Certified Red Team Professional, Altered Security Jul 2026
eCTHP – Certified Threat Hunting Professional, INE Oct 2026
eCPPT – Certified Professional Penetration Tester, INE Jan 2026
eCIR – Certified Incident Responder, INE Oct 2026
eJPT – Junior Penetration Tester, INE Oct 2025

PROJECTS

AI-Assisted Vulnerability Validation & Purple Team Pipeline – Technical Supervisor 2026

- Supervised two interns building a pipeline that matches CVE intelligence (NVD, CISA KEV, OSV.dev) to deployed software and validates exploitability in an isolated multi-VM lab, with LLM-assisted testing (OpenAI, Gemini) behind a human-approval gate.
- Designed the purple-team loop correlating controlled exploitation with Wazuh telemetry to measure detection coverage.

Windows Malware Analysis Lab Nov 2024 – Jan 2025

- Built an isolated lab for static/dynamic analysis of Windows malware; extracted PE, behavioral and network IOCs and mapped them to ATT&CK.

EDUCATION

TEK-UP University Tunisia
Engineering Degree, Computer Networks and Security *Sep 2025 – Present*
ISETCOM – Higher Institute of Technological Studies in Communications Tunisia
Bachelor in Computer Networks, Network Security – High Honors *Sep 2022 – Jun 2025*

ACHIEVEMENTS & LEADERSHIP

- **CTF: 1st Place** – CrackoutCTF 2025, DarkNetsCTF 2025, Darkest Hour CTF 2026 | **2nd Place** – TEK-UP CTF KAREEM 2025 | **3rd Place** – SparkCTF 2026 | **Top 8 MENA** (2026) – CSAW Qualifiers | **14th/2,893** – Hack The Boo 2025 (HTB) | **Top 3 Tunisia** – CyberDefenders (2025).
- **Securinets TEK-UP, Tech Team:** authored forensics and network challenges for CyberTEK, one of Tunisia's largest CTFs; led memory and PCAP analysis workshops. **Vice President**, Radio'Com Club, ISETCOM (2023 – 2024).
